ADAPTIVE LEADERSHIP IN MEDICINE — Physicians and Administrators; Partners in Leadership

AT ITS CORE...

> It is a people-focused approach to leadership development
> It is grounded in inclusion and honors diverse perspectives
> It focuses on mobilizing people to tackle tough problems and thrive
> It is designed to help individuals/organizations through change in times of uncertainty
> It is based on the premise that leadership is an activity not a person and can be exercised by anyone, no matter their role

adaptive leadership assists in providing leaders the insights & resilience to lead change when facing complex systemic problems.

Physician champions and administrative leaders JOIN TOGETHER

Gain leadership tools that will allow you to:

- **DIAGNOSE** and solve complex problems
- **SOLVE** problems in an iterative way
- **OBSERVE** more deeply
- **IDENTIFY** critical challenges and the type of leadership needed to solve them
- **REINFORCE** agility by identifying opportunities to transform
- **UNDERSTAND** social systems more analytically
- **BUILD** a network of adaptive leadership champions
