<thead>
<tr>
<th>Optimal Transfer of Sepsis Patient from CAH/ Rural to Regional Hospital</th>
<th>Primary Drivers</th>
<th>Secondary Drivers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Create a Partnership</td>
<td>• Identify facility that you transfer or receive sepsis patients from and contact sepsis or ED leader</td>
<td>Change Ideas</td>
</tr>
<tr>
<td></td>
<td>• Arrange a face to face visit</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Arrange a visit to “walk in their shoes”</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Develop a partnership between CAH Rural &amp; Regional Facility</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Establish agreement for screening, treatment/order sets, roles &amp; responsibilities for both facilities</td>
<td></td>
</tr>
<tr>
<td>Implement Reliable and Valid Early Detection Processes for Sepsis</td>
<td>• Screen every patient in ED triage with a standard sepsis evaluation tool</td>
<td>Change Ideas</td>
</tr>
<tr>
<td></td>
<td>• Monitor sepsis screening processes for reliability and validity</td>
<td>Change Ideas</td>
</tr>
<tr>
<td>Implement 3-hr Bundle for patients who screen positive for sepsis:</td>
<td>• Draw lactate ASAP and ensure that the results are available within 45 minutes</td>
<td>Change Ideas</td>
</tr>
<tr>
<td></td>
<td>• Implement processes that ensure the ready availability of blood culture draws so that blood cultures can be drawn before starting antibiotics</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Administer broad spectrum antibiotics (goal is within 60 minutes)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Administer fluid bolus 30ml/kg for patients with hypotension or lactate equal to or &gt; than 2mmol/L</td>
<td></td>
</tr>
<tr>
<td>Communicate Status of Treatment</td>
<td>• Communicate to regional facility &amp; EMS status of treatment</td>
<td>Change Ideas</td>
</tr>
<tr>
<td>Continue Treatment throughout Transport</td>
<td>• Ensure treatment continues during transport</td>
<td>Change Ideas</td>
</tr>
<tr>
<td></td>
<td>• Develop transfer orders that support fluid administration during transport</td>
<td></td>
</tr>
<tr>
<td>Create learning loop</td>
<td>• Provide regular feedback between CAH Rural facility and referral facility regarding identification, treatment, and status of the patient</td>
<td>Change Ideas</td>
</tr>
</tbody>
